Institute of Education

PROGRAMME SPECIFICATION

POST GRADUATE CERTIFICATE IN EDUCATION: PRIMARY Flexible course

PROGRAMME SPECIFICATION

1. Awarding institution/body	University of Worcester
2. Teaching institution	University of Worcester and Partnership Schools
3. Programme accredited by:	University of Worcester in conjunction with GTCE
4. Final Award	Post Graduate Certificate in Education: Primary
5. Programme title	Post-Graduate Certificate in Education
6. Pathways available	All students follow the same generic pathway with the exception of their chosen Extended Subject Study
7. Mode and/or site of delivery	Taught sessions at UW including lectures, tutorials, independent study and school based practice
8. Mode of attendance	Full time
9. GTTR Codes	X100; X121
10. Subject benchmark statement	DfE/ TDA Professional Standards for Qualified Teacher Status Post Graduate Regulatory Framework
11. Date of programme specification preparation/revision	December 2010

12. Educational aims of the programme

The Flexible PGCE Primary programme will provide students with a theoretical and practical knowledge and understanding of how children learn and develop. It will develop students' skills, knowledge and understanding as classroom teachers through this process, and provide an awareness of how different patterns of organisation, and styles of teaching, best support effective learning and provide equality of opportunity for all children.

Students will be expected to develop a critical and evaluative understanding of the processes and practice of teaching and learning through demonstration of knowledge, skills and understanding related to high quality and effective practice. They will develop a clear framework of their own professional values and demonstrate a critical and reflective attitude towards their practice, showing an articulation of the interdependent relationship of practice and theory. Part of this process will be to ensure the development and attainment of competences that enable students to meet the Standards for Qualified Teacher Status (QTS). Within the programme students will be working towards 120 credits with 60 credits at Level 7.

13. Intended Learning Outcomes and learning, teaching and assessment methods

In order to successfully meet the Post-Graduate element of the programme students will:

- Meet all the current Standards for the Award of QTS
- Demonstrate expertise in research skills through critical evaluation and reflection on

specified pedagogical issues using appropriate research methodologies and analysis.

- Have critically studied an aspect of their Extended Subject Study in greater depth in order to apply more complex analysis of the subject in relation to effective practice.

In relation to the University Learning and Teaching Strategy the course will enable all students to aspire to be autonomous learners; provide a programme which embraces key/transferrable skills; disseminates good practice in learning and teaching; supports students of varying experiences, needs and backgrounds and monitors the quality of the student experience. There will be a range of teaching, learning and assessment methods including lectures, workshops, peer group activities, seminars, directed reading, independent research, directed study, presentations, tutorials, fieldwork and use of both formative and summative assessment which will draw on evidence, reflection, analysis and evaluations.

Each of the components on the course will outline its intended learning outcomes within the DVD.

14. Assessment Strategy

Students, in consultation with their Needs Analysis tutors, who can demonstrate that, through previous and relevant work experience, they have successfully met all the standards and learning outcomes for some modules may APEL against those.

Each module has specified assessments, details of which can be found within the DVD module outlines. A range of assessments within the course will be used for both formative and summative purposes and relate directly to students' developing competence and knowledge. The assessments relate directly to the principles and objectives of the course and are designed to help students to reflect on their professional development, provide evidence of learning from primary and secondary sources and identify future targets.

The assessed items at Level 7 are awarded on a pass, merit and distinction basis. Within the Post Graduate Framework the minimum pass mark is 50%. Modules 4, 5 and 6 are marked at Pass/Fail and are Level 6 assessments.

Module	Title	Credits	Assessment
Pedagogy and Management 1	PAM 1	20 credits	3,000 word assignment: Level 7
Pedagogy and Management 2	PAM 2	20 credits	4,000 word Professional Portfolio: Level 7
Extended Subject Study	ESS	20 credits	3,000 word assignment: Level 7
Module 4	Core Subjects and ICT	20 credits required for satisfactory completion of Professional	Subject profiles

		Qualification	
Module 5	Foundation Subjects, RE & SEN	20 credits required for satisfactory completion of Professional Qualification	Directed study tasks as outlined in component outlines
Module 6	School Experience	20 credits required for satisfactory completion of Professional Qualification	Completion of Professional Development Profiles in relation to National Standards for QTS

The course requires full attendance and participation in taught sessions and completion of any directed study tasks which are set. The DVD and course outlines specify greater detail, where appropriate, on these requirements.

In order to gain 60 credits at Level 7 all 3 modules at Level 7 must be successfully completed.

15. Programme structures and requirements

The 38 week programme includes 3 modules of 20 credits each at Level 7 and 3 modules of 20 credits at Level 6.

Normally full attendance and participation are required in the taught sessions in order to fulfil the learning outcomes within the course.

In addition to the work outlined in the Assessment Strategy students will be expected to undertake the following:

Directed Study Tasks (DSTs)

During a taught module students may be required to complete one or more DSTs. These form part of the taught course and are designed to promote students' learning. Module tutors monitor students' completion of DSTs.

School-based Tasks (SBTs)

During both serial and block school experience students may be required to complete one or more SBTs. These form part of the course and are designed to promote students' learning.

Final Awards

Those students who successfully complete the Post Graduate elements of the course and all

course and DfES/TDA requirements for QTS will be recommended for the Award of Post Graduate Certificate in Education with QTS. This award will gain 60 credits at Level 7 and 60 credits at Level 6.

Those students who successfully complete the Post Graduate elements of the course but who are unsuccessful in completing all of the Level 6 modules will qualify without QTS and will be awarded the Post Graduate Certificate in Educational Studies. This award will gain 60 credits at Level 7

16. QAA Academic Infrastructure

The course is bound by the Standards for QTS and criteria for assignments are specific interpretations of the Framework for HE Qualifications (FHEQ) for Level 7 and the QAA Code of Practice.

17. Support for students

- Induction sessions at start of course including ILS input
- Detailed University Course and Student handbooks, access to SOLE pages and other relevant course materials available on Web CT
- Personal tutor support provided for each individual student
- Subject specific guidance from tutors
- Student views are represented through a Course Consultative Committee and by representation on the Course Committee
- Equal Opportunities Department in the University supports those with disabilities
- Registry service support
- Access to student welfare services such as careers and counselling
- Accommodation Office support students in finding accommodation

18. Admissions policy, criteria and procedures

Candidates must hold a good honours degree of a British university or an award recognised as equivalent. They must demonstrate to the satisfaction of the University that they have an appropriate level of subject knowledge in their chosen Extended Subject Study, either through study at undergraduate or advanced level or from prior experience.

All candidates must have attained grade C or better in GCSE (or recognised equivalents) in English Language, Mathematics and Science at the time of application.

The University wishes to recruit students who have a strong commitment to teaching as a career. It is expected that candidates for interview will have gained some appreciation of the demands and expectations of teaching as a result of recent experience in primary schools. A conscious decision about commitment to teaching would be based on this experience. Further work with children, in a paid or voluntary role, would also be deemed valuable.

The University operates an Equal Opportunities Policy and welcomes applications from members of ethnic minority groups and from candidates with disabilities.

The University seeks students from a variety of backgrounds and with differing personality characteristics. Successful candidates need to demonstrate lively minds together with the ability to communicate their interest and enthusiasm to pupils, professional colleagues, parents and other adults. It is desirable they display qualities of self-confidence, resilience, adaptability and determination with imagination and sensitivity to the needs of others. They will be people who also have a disposition to carry on learning and who have a keenness to share their interest with others. Candidates called for interview will be asked to undertake some research on an educational matter and then be expected to produce an extended piece of writing as part of the assessment undertaken on the interview day. This will help inform decisions regarding a candidates suitability for Level 7 work. Unsuccessful candidates will be provided with feedback.

Application is made through the GTTR and further information from the University is available through Registry Admissions Office. If called for interview this will consist of a written task, a group work task, a presentation and an individual interview.

19. Methods of evaluating and improving the quality and standards of teaching and learning

These follow the general procedures set out in the University Quality Assurance Handbook. Procedures are undertaken for post graduate modules which ensure that students can give feedback on the progress of modules so that adjustments can be made, as appropriate. The holding of Student Course Consultative Committee meetings allow specific issues raised by students to be taken forward by student representatives, as necessary, to the Course Committee.

Review and evaluation of the course will continue to use a cumulative process which derives data from student and tutor evaluations of modules and the annual External Examiners' reports. These inform the Course Committee, which is charged with monitoring and evaluating the health of the course and the minutes of the meetings pass to the Institute Board. The Course Leader's Annual Monitoring Report takes account of the evidence collected and analysed during the year. These Annual Monitoring Reports include an action planning section, which is commented upon in subsequent years' reports, and which guide the future planning of the course team.

Annual Reports are scrutinised by the Institute, which also monitors that action plans are implemented and that course and institutional issues are considered and acted upon. Responsibility for the oversight of the University-wide process of monitoring and evaluation lies with the Academic Quality Unit. The course has also been regularly inspected by OfSTED when they have surveyed Primary ITE provision at the University and this has provided positive feedback.

In all these ways, a continuous cycle of monitoring, evaluation and implementation can be offered at institutional, the whole course and individual component level.

20. Regulation of assessment

Students have to successfully complete all professional elements including the DfES/TDA requirements for QTS and also successfully complete 60 credits at Level 7 and 60 credits at Level 6 to be awarded a Post Graduate Certificate in Education with QTS. This course falls within the Postgraduate Regulatory Framework (PRF).

Students who are unsuccessful in passing the professional elements at Level 6 but who successfully complete all postgraduate elements will gain 60 credits at Level 7 to gain the Post Graduate Certificate in Educational Studies.

Students who gain 20 or 40 credits at Level 7 will be awarded these credits.

The details of assessment requirements have been outlined under the section on Assessment strategy and the section on Programme structures and requirements.

Anonymous marking is not possible due to the personal nature of the tasks undertaken. In the case of assignments at least 10% of these are double marked. External Examiners view samples of all assignments and comment on these.

At the final Examination Board Course tutors and external examiners will be involved in the process of making final judgments on the award to be given.

21. Indicators of quality and standards

- There was a highly successful Ofsted inspection of Primary Initial Teacher Training at our institution, which included the PGCE Primary Courses, and took place during the academic year 2007-2008 and which resulted in being awarded a Grade 1.
- External Examiner Reports have commented favourably each year on the running of the Course and that it is meeting the national requirements for the award of Qualified Teacher Status.
- Award to the University of Investors in People and a successful Institutional Audit.
- There is a large and high quality recruitment base to the course and a high take up of employment into the profession.

22. Career Opportunities and links with employers

The Course as a whole prepares for teaching with an age range emphasis of 3-7 or 5-11 and with an Extended Subject Study strength. Many students gain employment locally and within partnership schools. Some students because of geographical or family circumstances prefer to take up part-time work and again a number of these are in partnership schools. We have links with approximately two hundred primary, first and middle schools and a large number of nursery settings. A number of these schools play a part in course design and development. All schools are regularly invited to attend Lead Mentor and Class teacher training sessions. All students have access to the University Careers Service.

Please note:

This specification provides a concise summary of the main features of the programme and the learning outcomes. More detailed information on the learning outcomes, content and teaching, learning and assessment can be found in the following documents:

- PGCE Primary Course Handbook (reviewed annually)
- PGCE Primary Pedagogy and Management Handbook (reviewed annually)
- Web address: <http://www.worcester.ac.uk>

20. Regulation of assessment

Final Awards

Those students who successfully complete the Professional elements of the course along with the DfES/TDA professional requirements for Qualified Teacher Status (QTS) will be awarded 120 credits at Level 6, resulting in a Professional Graduate Certificate in Education and recommendation to the GTCE for QTS.

Assessment requirements have been outlined under the section on Assessment strategy and the section on Programme structures and requirements. This course falls within the Postgraduate Regulatory Framework (PRF).

Requirements to pass modules

- Modules are assessed using a variety of assessment activities which are detailed in the module specifications.
- The minimum pass mark is 50% for each module.
- Students are required to submit all items of assessment in order to pass a module, and in some modules, a pass mark in each item of assessment may be required.
- Some modules have attendance requirements (delete if this does not apply).
- Full details of the assessment requirements for a module, including the assessment criteria, are published in the module outline.

Submission of assessment items

- Students who submit course work late but within 5 days of the due date will have work marked, but the grade will be capped at 50% unless an application for mitigating circumstances is accepted.
- Students who submit work later than 5 days but within 14 days of the due date will not have work marked unless they have submitted a valid claim of mitigating circumstances.
- Students who fail to submit an item of assessment lose their right to reassessment in that module, and will be required to retake the module, which will incur payment of the module fee.

For full details of submission regulations see Postgraduate Regulatory Framework.

Anonymous marking is not possible due to the personal nature of the tasks undertaken. In the case of assignments at least 10% of these are double marked. External Examiners view samples of all assignments and comment on these, as well as observing and moderating a sample of students on their final school placement.

During school experiences students are monitored using the Professional Development Profile and, in the case of the final practice, this uses the national Standards for the Award of QTS as the criteria for successful completion.

At the final Examination Board external examiners, course teaching staff, supervisory tutors and representatives from partnership schools are all involved in the process of making final judgments on the awards to be given.

There is no award of the Professional Graduate Certificate in Education.

21. Indicators of quality and standards

- There was a successful Ofsted inspection of Primary Initial Teacher Training at our institution, which included the PGCE Primary Courses, and took place during the academic year 2009-2010- this resulted in the award of “outstanding” across all inspections areas.
- Annual External Examiner Reports comment on the continuing high quality provision and the recognition of outstanding creative and innovative teaching practice.
- Award to the University of Investors in People and a successful Institutional Audit.
- There is a large and high quality recruitment base to the course and a high take up of employment into the profession.

22. Career Opportunities and links with employers

The Course prepares for teaching with an age range emphasis of 3-7 or 5-11 and with Extended Subject Study strength. Many students gain employment locally and within partnership schools. Some students because of geographical or family circumstances prefer to take up part-time work and again a number of these are in partnership schools. We have links with approximately two hundred primary, first and middle schools and a large number of nursery settings. A number of these schools play a part in course design and development. All schools are regularly invited to attend Lead Mentor and Class teacher training sessions. All students have access to the University Careers Service.
