

PebblePad e-portfolio

What is PebblePad

- User centred system
- Personal learning system
- Allows users to create and upload assets to support and provide evidence of learning
- Allows individual users to share selected assets with others

Blackboard vs PebblePad

- Blackboard provides students with information, activities and a means of communication all driven by the tutor
- PebblePad provides students with a personal area which they can customise, create assets and share with others as they choose
- Not mutually exclusive

Implementation

- Phase 1 – Staff pilot and feedback
- Phase 2 – select small groups of students where intended use is clear
- Phase 3 – make available to all students with guidelines for PDP
- Some courses/tutors may use for learning and teaching
