

Creating an iTunes Account on the iPod Touch

Your iPod Touch must be associated with an iTunes account, even to download free content

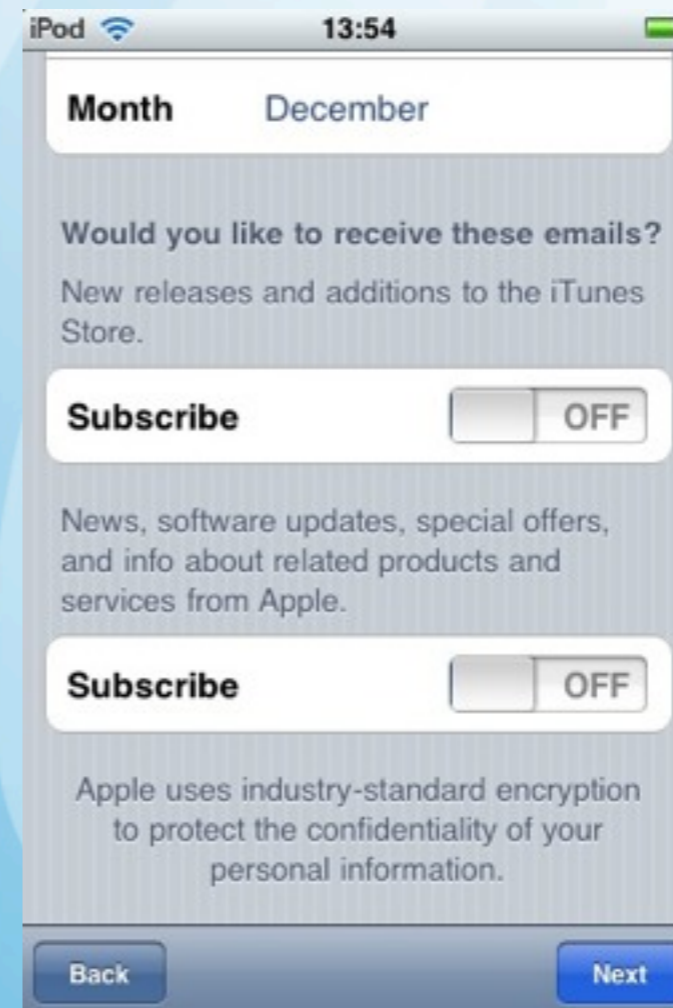

When accessing the iTunes Store or App Store for the first time, you will be prompted to sign in or create an account

Choose [Create New Account](#)

Choose the UK store and read and agree to the terms and conditions

Fill in your new account details, select any Apple updates you would like to subscribe to, and choose [Next](#)

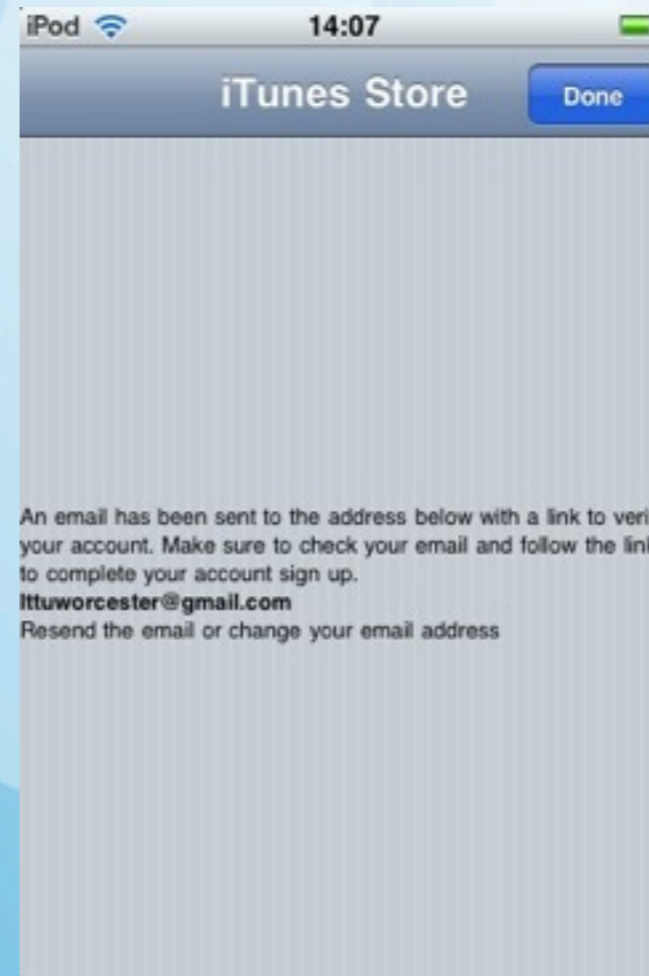

Enter Billing Information

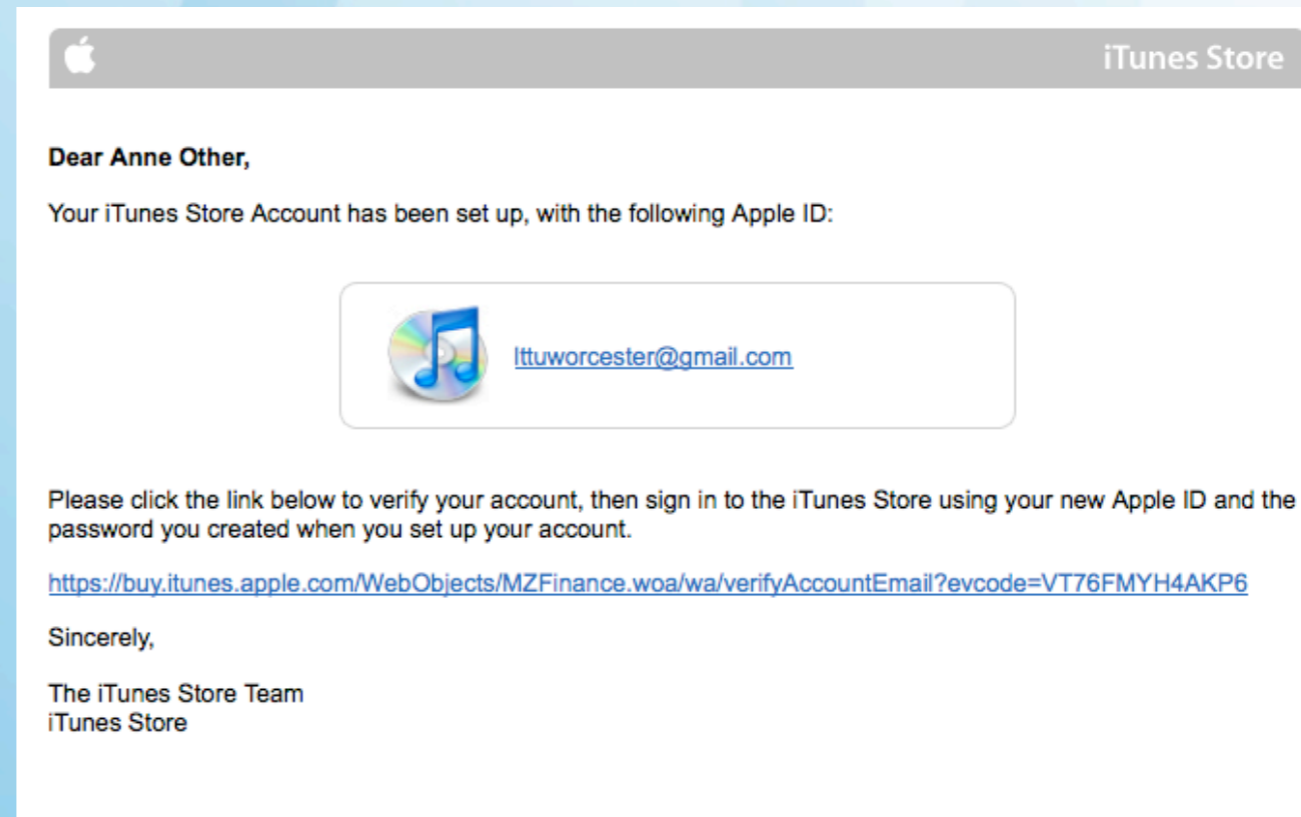

You can associate your iTunes account with a credit card to quickly and easily purchase content

If you wish to set up an account without a credit card, or plan to use iTunes vouchers, you can select this here by choosing **None** for payment type

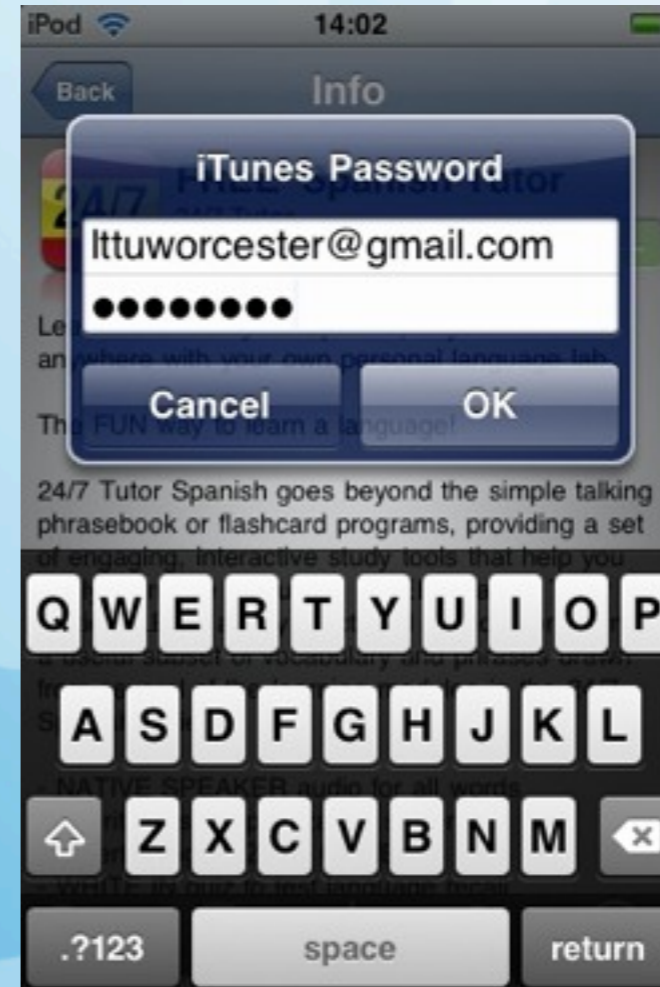

Enter your billing address details and finish your account setup

You will be emailed your iTunes account details,
and you must click on the link within the email to
verify the account

Finally, log in to iTunes on your iPod Touch with your new account. You can now access the iTunes store, download apps, podcasts and video content

For further help and information in using the iPod Touch at the University of Worcester, please contact eos@worc.ac.uk
