- 26th Nov: Sustainability of Meeting Centres Nationally

Zoom Housekeeping

Mute unless speaking - turn off microphone

Turn on speaker view – see View icon at top of screen

You are welcome to put comments /questions in the chat, which will be monitored during the webinar.

Aims of this webinar

Aims of the session

- Second webinar in series of 8 during 2021 – instead of face to face conference looking at MCs from different perspectives
- Today discussing with MC Demonstrator Sites leaders how they have steered the MCs and managed risk over the last year and looking at the rest of 2021.

meetingcentres@worc.ac.uk

Context of the session

- A MC is a local resource, operating out of ordinary community buildings, that offers on-going warm and friendly expert support to people and families affected by dementia.
- MCs are evidence-based and a key aspect is regular face-to-face contact with other people.
- MCs have rapidly needed to find innovative ways to support those isolated at home during the pandemic.

Let's see what MC leaders have had to face over the last year and how they intend to move forwards.....
