**Empowering Early Career Teachers:
Join the ECT Community
2025/2026!**

Would you like additional support for your first teaching years? Join the University of Worcester ECT Community for 2025/2026!

Each session has a single focus with an initial input delivered by an expert colleague to help you develop and refine your practice. This will then be followed by the opportunity to share and explore your own experiences with a solution focussed approach, in a supportive learning community, utilising Action Learning Sets.

These sessions are led by an experienced facilitator from the Institute of Education at the University of Worcester and are carefully designed to enhance ECT induction.

Don't do it alone – build your network and thrive in your teaching career!
