Empowering Early Career Teachers: Join the ECT Community 2025/2026

Don't miss out – invest in your ECTs' success and join the network!

This network offers a unique opportunity for both schools (KS1 to KS5) and Early Career Teachers (ECTs). Each session has a single focus with an initial input delivered by an expert colleague to help ECTs develop and refine their practice. This will then be followed by the opportunity to share and explore their own experiences with a solution focussed approach, in a supportive learning community, utilising Action Learning Sets.

These sessions are led by an experienced facilitator from the Institute of Education at the University of Worcester and are carefully designed to enhance ECT induction.

Schools can support their ECTs' growth and build a thriving teaching community.
