

Introduction to Health Assessment of the Child and Young Person

5 day workshop

As healthcare provision changes to meet the needs of the population, practitioners are crossing professional boundaries to meet these demands. Health Assessment whether comprehensive or focussed, forms the basis of clinical decision-making, and every patient/practitioner contact is an opportunity for assessment.

This 5 day workshop enables practitioners to explore and enhance their knowledge and skills in the performance of health assessment of children and young people within the context of professional practice.

Target Audience:

Registered nurses or Allied Health professionals with a minimum of 12 months post registration experience.

Practitioners should be in a position that involves direct contact with children and young people.

It is expected that all practitioners will have a good knowledge of developmental anatomy and physiology.

Following this workshop support in the workplace with an experienced practitioner is strongly recommended.

This workshop does not equip students with any competence therefore anyone working in a paediatric advanced clinical practice role needs to do M level Paediatric Health Assessment module MSAP4160.

Aim

To provide the participant with:

- An overview of the principles of history taking and physical examination.
- Factors impacting on their role and consideration of clinical reasoning and critical thinking.

In any given year the availability of conferences, events and study days will depend on delegate numbers. In the event of a conference, event or study day not being run due to a low number of delegates registering, delegates will in these circumstances be offered a full refund.

Workshop Tutor

Dr Kerry Gaskin
Principal Lecturer, Advanced Clinical Practice,
University of Worcester

Provisional Dates

10 – 14 February 2020

(09.15 – 16.15)

Venue

University of Worcester

Workshop Fee

£446

All students employed by a Worcestershire NHS Trust or Wye Valley NHS Trust have to complete a study leave form (or equivalent) if they want (a) to study in works time, or (b) want the Trust to fund or part fund the course, or both. Upon receipt of your approved trust study leave form you will receive notification that your place is booked. If you attend these days without an approved study leave form you will be charged.
