Standards regarding the use of the term 'Parts'

There are three Practice Assessment Documents in total, which incorporate the range of Future Nurse Standards in Proficiency (NMC 2018). 'Parts' in this context is used to represent the range of outcomes to be achieved by students at different levels. These parts may differ from the parts of the education programme that will be defined locally by each University provider.

Guidelines for OAR

Student

The Ongoing Achievement Record (OAR) summarises your achievements in each placement, and with the Practice Assessment Document (PAD), provides a comprehensive record of professional development and performance in practice.

The purpose of this document is to provide evidence from practice assessor to practice assessor regarding your progress, highlighting any areas for development throughout the programme. Your practice assessor and academic assessor must have access to this document at all times during your placement and it should be made available on request. It is your responsibility to ensure it is completed on each placement.

Practice Supervisor

As a practice supervisor you can use the OAR to review achievements and progress to date and identify additional learning opportunities to support student development and learning.

Practice Assessor

As a practice assessor this document provides you with information regarding the student's progress. This allows areas for development to be identified from previous placements. It is your responsibility to ensure that each placement record is completed and the progression statement at the end of the Part is signed. It is also your responsibility to confirm which of the identified proficiencies have been achieved in Part 2/Part 3.

Academic Assessor

As the academic assessor you work in partnership with the practice assessor in relation to student achievement in practice. The academic assessor confirms student completion and recommends the student for progression for each part of the programme.

To be completed by the practice assessor.

Achievement of Proficiencies in either Part 2 or Part 3

To support the student in progressing effectively through the programme and in utilising the valuable opportunities available across a range of placements a flexible approach to assessment is required.

To achieve this there are certain proficiencies that can be met in either Part 2 or Part 3 and these are listed here within the OAR.

By the end of the final placement in Part 2, the practice assessor confirms which of the identified proficiencies have been met in Part 2 (some of these may be Part 3 proficiencies) to enable the student to plan which proficiencies need to be assessed in Part 3.

The practice assessor must confirm achievement of proficiencies in Part 2 and Part 3 and within this OAR even though they may have previously been signed in the PAD.

Some of the proficiencies may be met within simulated learning as per the individual university's policy.
