# Research Degree Programmes at the University of Worcester

## OPEN MORNING

Saturday 27 March 2021

## Welcome

from Dr John-Paul Wilson, Deputy Pro Vice Chancellor Research

We are delighted you are interested in undertaking a research degree at the University of Worcester. You will be joining a University with a fast growing research culture with a global reputation in subject areas as diverse as atmospheric science and dementia studies, violence prevention and Early Years education, psychological medicine and African history.

As a research student you will join a vibrant student community in our Research School and become part of our dynamic research environment. You will have the opportunity to be supervised by leading researchers in your field and take advantage of our rich Research Student Development programme which will help you to advance the skills and knowledge you need to complete your research degree but also enhance the skills you will need in any future career.

I look forward to meeting you at our Open Event, but you can find out all about our research degrees at <https://www.worcester.ac.uk/research/research-degrees/> and can read more about our research at [www.worcester.ac.uk/research/discover-our-research/](http://www.worcester.ac.uk/research/discover-our-research/).

A handwritten signature in black ink, which appears to read "John-Paul Wilson".

# Research Degree Supervision Areas

The open day is for people interested in a Masters by Research (MRes), Master of Philosophy (MPhil) and Doctor of Philosophy (PhD). Please see our webpages for more information: <https://www.worcester.ac.uk/research/research-degrees/>

We offer MRes, MPhil and PhD degrees in a broad range of subject areas at the University of Worcester as listed below. It is not possible to represent all of these subject areas at an open day but our MPhil/PhD Course Leaders (who deal with all research degree admissions) will be there to meet you and talk about your ideas and application for a research degree.

Allied Health Studies
