Key note speakers

Professor Lu Yan

We are pleased to announce a special guest presentation by Professor Lu Yan of Beijing Sports University, a close working partner of the University of Worcester.

Professor Lu will present on Tuesday 3rd July (1.30pm)

Professor Lu Yan, a doctor of Physical Education and former vice chairman of Asia Federation of Adapted Physical Activity, is currently vice chairman of the Committee on rehabilitation of intellectual disability of the China Association of Rehabilitation of Disabled Persons, and vice chairman of the Sports Health Industry development committee of the World Federation of Chinese Medicine Societies. Her research has focused on Inclusive physical education, children's movement development and assessment, and the education rehabilitation of disabled children. She has authored 70 publications and conducted more than 20 research projects.

Dr Richard Bailey

Day 1: Adapted Physical Activity & Sport

Richard Bailey PhD FRSA is one of the world's leading researchers into the relationships between sport, physical activity, and human development. He leads research at the International Council of Sport Science and Physical Education, the worldwide umbrella body for sports science and education organisations.

Before this position, he was Full Professor at four UK Universities. He is the author/editor of 30 books and more than 120 research articles. Richard has worked with Nike, Unilever, UNESCO, OECD, WHO, IOC, EU, Die Deutsche GIZ, Premier League, Football Association, Professional Golfers Association, Sport England, Sports Coach UK, and several similar agencies, and the governments of England, Scotland, Wales, Korea, and South Africa. He was scientific adviser on the worldwide 'Designed to Move' initiative, editor of UNESCO's Revised International Charter of Physical Education, Physical Activity and Sport, and is Senior Expert for Physical Education for OECD's 2030 agenda.

Kelda Wood

[@WoodKelda](#) [@rowtoraise](#)

Day 2: Inclusive Physical Education

Kelda Wood always dreamt of representing her country and competing at the Olympics. Unfortunately various setbacks prevented her from achieving this in her chosen sport of 3-day eventing. A life changing injury in 2002 then saw Kelda set off on a journey that included being a member of the GB Paracanoe Squad aiming for the Rio Paralympics in 2016, setting up a charity called Climbing Out, and becoming the first recorded adaptive female to summit Aconcagua, the highest peak in South America.

in December 2018 she will be attempting to become the first adaptive woman ever to solo row the Atlantic as part of the Talisker Whisky Atlantic Campaign. She is taking on the 3,000 mile challenge with the aim of inspiring others facing physical or mental trauma, and to raise awareness about support available.

Each day she's on the ocean she'll be rowing for a different young person, sharing their stories and links to charities and organisations providing support.

Bob Laventure

Day 3: Health & Rehabilitation

Bob Laventure has over 20 years experience as a Consultant in Physical Activity and Older people. His background includes working as former Physical Education and Arts adviser and in sports development and exercise and health promotion. Bob spent more than 15 years at the BHF National Centre for Physical Activity and Health, at Loughborough University where he had a remit for programme development in relation to older people and physical activity and a special interest in the translation of research evidence into practice and the education and training of exercise and health professionals.

Currently a director of Later Life Training, Bob has been responsible for developing a range of courses and qualifications for exercise professionals including the topics of motivation and people living with dementia and is the writer of over 30 educational resources relating to physical activity and health. He has spent 6 years as an adviser to the Care Inspectorate, Scotland's national programme Care About Physical Activity.

1997 Bob received a Special Achievement Award from the Exercise Association of England and in 2000 received a Fellowship of the Physical Education Association of the UK. He is a former Chair of AGILE, the Chartered Physiotherapists Special Interest Group on Older People and a recipient of their Lifetime Achievement Award. In addition to work with the European HEPA Active Ageing Working Group, the World Health Organisation and an Advisory Board member of the International Council on Active Aging, Bob is now involved with the Implementation Working Group reviewing the UK CMO Guidelines on Physical Activity.

A former basketball coach and passionate about rugby, Bob's spare time is spent supporting his grandchildren and walking on deserted beaches anywhere in the world.

Programme

The conference is organised in three themes:

- 1 Day 1 - Adapted Physical Activity & Sport
- 1 Day 2 – Inclusive Physical Education
- 1 Day 3 – Health and rehabilitation

Follow this link to see the [EUCAPA 2018 basic programme](#). More detail will be added as specific presentation slots are allocated.

Each afternoon there is a specialist symposium or a choice of interactive practical workshops.

See the current [EUCAPA 2018 Workshop programme](#).

Further details about the programme will published here shortly.
