

Game Art degrees

Key features of this course:

Our Game Art programmes mix creativity and talent with the latest technology and academic rigour.

At Worcester you'll gain first-hand experience of what it takes to develop successful game content and graduate with a portfolio demonstrating your technical skill and creative ability. You will master industry software to create 2D and 3D concepts, while exploring the art of making games, analysing their artistic and cultural value and gaining a critical appreciation of the mainstream and indie sectors.

You can also choose to study a joint honours degree, combining modules in related areas such as Animation, Creative Digital Media and Graphic Design.

Game Art degrees

Single Honours

[Game Art BA \(Hons\)](#)

Joint Honours

[Animation and Game Art BA \(Hons\)](#)

Visit our [Joint Honours page](#) to find out more about studying subjects in combination at the University of Worcester.
