Svilen Andreev

Business, Accountancy & Economics BA (Hons)

Coming to University of Worcester was one of the best decisions I have ever made. University of Worcester gives a significant number of opportunities for personal and professional development. From my experience at University, I can say that University of Worcester has excellent academic environment, where everyone aims to be helpful.

I am doing a Bachelor degree in Business, Accountancy and Economics. I have been taught by brilliant lecturers and that fact enabled me to achieve higher grades in my first year. As many other things University of Worcester supports and appreciates its best students, and awarded me with £1,000 Scholarship for Academic Achievements.

I think I found the right place for me at University of Worcester and I do not regret it.

Dina Tomas

Marketing, Advertising & Public Relations BA (Hons)

"Inspired for life" – this is what you'll see on the cover of the prospectus. You probably ask what is the difference between all universities - at the end of the day you leave with a diploma and knowledge that you will have to put in practice. Well, "Inspired for life" is not just another slogan. It is what the University of Worcester gives to its students.

Through the high-quality facilities, friendly environment and professional student services, it motivates not only me, but all of the students at this university. The amazing team of lecturers do their best to help with assignments and any studies.

The "inspiration for life" and success combined with my hard work resulted in receiving the Scholarship for Academic Achievement this autumn. The city is great – you can find everything you need from shops to pubs. Once you come here, you will be inspired to achieve your dreams.

Stefan Kovachev

International Masters of Business Administration

I chose to study a postgraduate course at the University of Worcester as it offered the MBA level programme at an affordable price. I enjoy the fact that there are many international students on the course. Additionally I think it provides a solid base of knowledge required for running a business successfully.

The University has really nice campuses and facilities and the teaching is more personal.
